Ayon Triton PA

We are proud to introduce a new generation of fully balanced designed KT88 stereo power amplifier, the Triton. The result is a significant advance in sonic performance, wider and deeper soundstage with greatly improved powerful bass punch and dynamics. Musical finesse with very fine details and superb powerful performance has been combined without compromise into one convenient chassis and affordable pricing. Compared with many top grade power amplifiers, the Triton is a mid-priced unit, but we are confident that value and musical performance is approached by few KT88 designs only, regardless of cost.
